

Emsworth Strategic Project

The aim of the liveability project for Emsworth is to make improvements to crossing the A259 and reducing the effects that the road has on the community.

Latest News

October 2006

Progress

Roundabout, subway, railings and ramp completed. See photographs below

July 2006

See below for progress on various elements of the Emsworth Liveability Projects' progress

Roundabout A259

All works completed

Before

After

Subway

Artwork has been installed in the subway

East-west View from East Hill

West Hill View from B

Original artwork for the subway

Steps on path replaced with an anti slip ramp to facilitate disabled access and three new lighting columns installed.

Before

After

- Brickwork repairs complete*
- Mirrors installed*
- All brickwork has been cleaned*
- *The above three items have been funded by HCC
- New handrails in place

New drainage channels installed

Railings

New railings have been erected around the subway and decorative plaques have been fixed to the railings.

Footpath to Brook Meadow

Before

After

Initial section of path completed and wire netting has been removed
Anti-slip on bridge and treatment of woodwork complete

Improvements to crossing North Street

Before

After

The crossing was widened to provide a safe refuge in the centre of the road, with additional tactile paving to aid partially sighted pedestrians. Drop kerbs were re-aligned to provide a straight crossing point.

Vehicle & pedestrian signage and lighting

New pedestrian finger signs and vehicle signing to car parks will be installed early in the new year.
New decorative lighting on the A259 will be installed, commencing in December 2006.

Budget

Current spend Actual/Commitments £190, 000, with the small amount of additional work left, anticipated that the final spend will be close to the allocated £200,000.

History

The main features of the Liveability Project in Emsworth were identified as:

- Improvements to the North Street Subway
- Link from the subway to the car park
- Improvements to crossing North Street
- Improvements on the A259
- Link to Brook Meadow
- Treatment of the wooden bridge/walkway
